

Division of Building Safety

State of Idaho

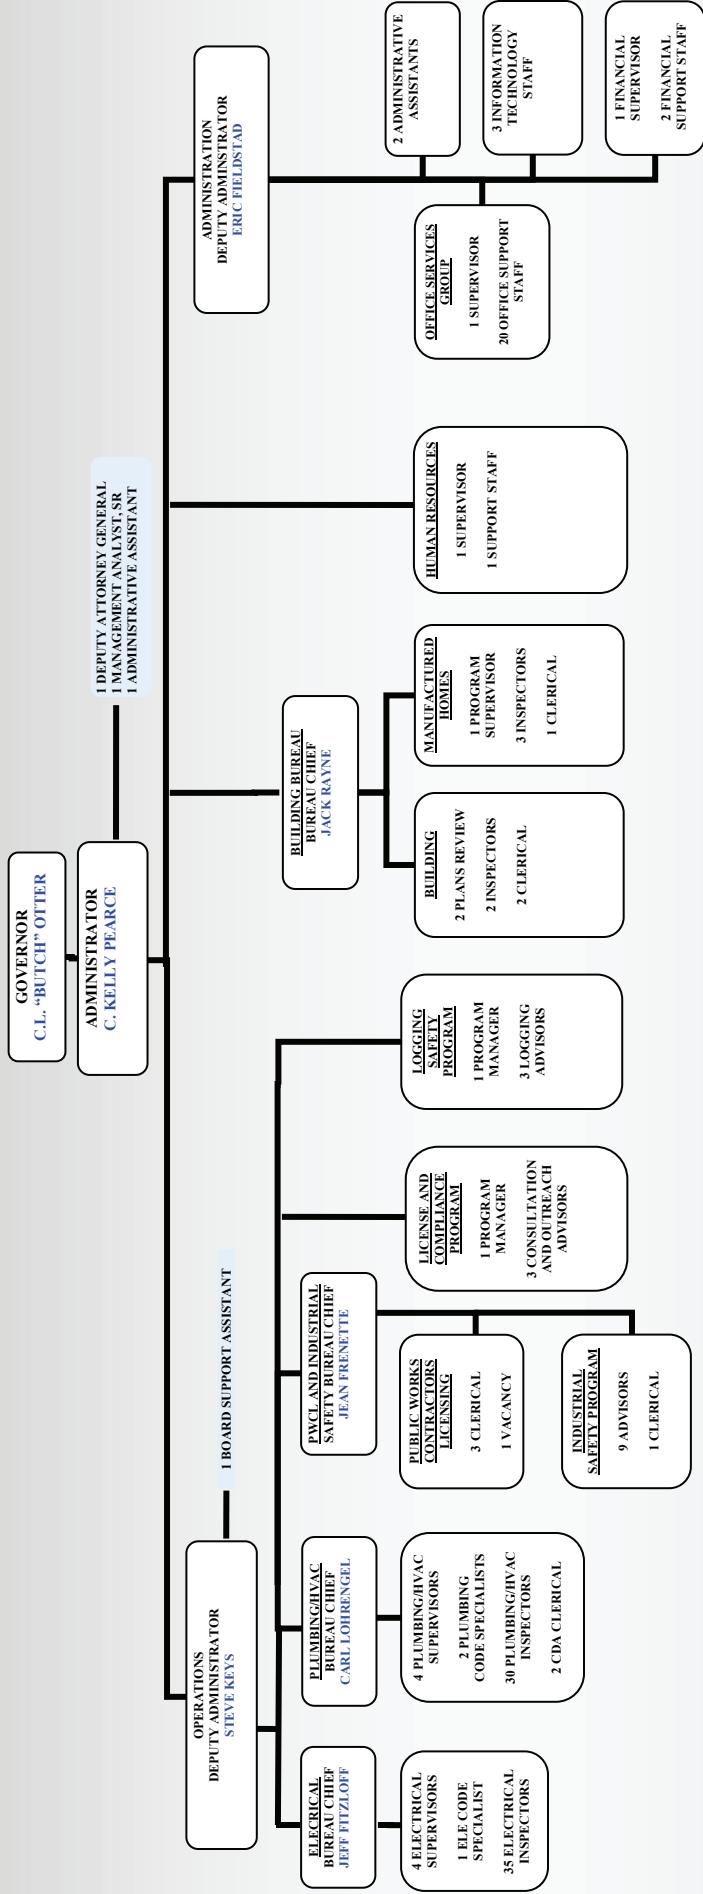

Strategic Plan

“Building a Safer Idaho”

DIVISION OF BUILDING SAFETY

State of Idaho

Mission Statement:

To safeguard life and property for the citizens of the State of Idaho by ensuring proper building design in the areas of electrical, plumbing, heating, ventilation and air conditioning (HVAC), and promoting public safety through the licensing of public works contractors and conducting on-site compliance inspections in accordance with all applicable state and federal codes.

Kelly Pearce
Administrator
Division of Building Safety

... The Division of Building Safety includes several administrative boards that serve to provide guidance and policy to the Division in its quest to provide licensing, permitting and inspection services to the construction community throughout the State of Idaho...

BUILDING

Doug Brown, Chairman

Logging First-Aid Class Attendees	2,036	1,892	1,979	1,725

*The HVAC Bureau began licensing and inspecting operations in FY 2005

Explanation: The Division of Building Safety (DBS) services the building and construction sector of Idaho's strong economy. Licenses and permits are issued upon customer request. On-site inspections are conducted by DBS staff members as a means of insuring code compliance on a project-by-project basis. The Industrial Safety Program provides safety inspections to public agencies, to include elevator inspections, and conducts safety awareness training seminars to members of Idaho's logging industry.
